

**Korean Air Cargo and Delta Air Logistics cooperate for expanding
Equation service network to US**

Effective April 1, 2003, Korean Air Cargo and Delta Air Logistics began providing Equation service to 54 cities in the US. The Korean Air shipments originating in Asia are transferred to Delta's U.S. domestic network at its largest U.S. gateway city, Atlanta. It is part of SkyTeam Cargo's larger strategy to make its common product offering available worldwide through SkyTeam Cargo's extensive alliance network.

Equation offers departure on the first available flight.

Shipments are accepted 90 minutes prior departure and delivered 90 - 120 minutes after arrival. Although the maximum weight of each package is 70 kg (150 lbs).
